Hockey Artificial Turf

TaiShan Hockey Artificial Turf is one of our competitive products. It is not compacted with small infill but instead heavily to reduce abrasion and keep the ball moving quickly. Thanks to the high water permeability and retention, it conserves water effectively and benefits the environment. It also helps our customers cut the cost due to the fire-resistance and anti-UV design.

- ✓ Stitches: 300 stitches/meter
- ✓ Tufts: 6000 stitches/m² (±10%)
- ✓ Pile weight: 2155g (±5%)
- ✓ Primary backing: U.V. Resistant Triple layers, 203g/m² (±5%)
- ✓ Coating: SBR Latex, 1000g/m² (±5%)
- ✓ FIH approved product global certification.
- ✓ FIH field certification.

This hockey artificial turf is the first product in China to be certified with FIH field certification. This means our artificial grass products are resistant to aging, extreme temperatures, and are suitable for frequent uses. The synthetic lawn is produced and will be installed with TH17 water-based and infill-free materials. The Hockey Artificial Turf has achieved both national and global level FIH certificate. National level TH20 is superb sand dressed product and provides excellent club hockey sports as well as multi use. Global level TH12 is water-based and infill free product. Both are the best surfaces for the competitions and training of field hockey. They can be applied in 3 kinds of competitions, the world level, the specified international, the national.

Special characteristics

- TaiShan is the first company in China approved by FIH of National and Global Level.
- We have installed the first national grade hockey field in China.
- Thanks to the professional installation team, we offer the best installing support and design advice.
- The product delivery time is as fast as 7-15 days.

Advantages of Hockey Artificial Turf

- The smooth and abrasion resistant turf products with weather proof performance have long service time within 7-15 years.
- Our turfgrass of high density exerts no effect on the moving direction of the ball.
- Our cultivating turf has as good kinematic performance as a cushion.
- Environmental friendly and hardly fading.
- The hockey turf is well connected with few seams and offers multiple colors.

Qualification

Our hockey artificial turf is qualified to all standards and of the FIH (International Hockey Federation) certificate.

Case Study

TaiShan, founded in 2002, is a wholly-owned subsidiary of TaiShan Sports Industry Group. We are a one-stop leading manufacturer and wholesaler focusing on R&D, production and sales of artificial sports turf, leisure garden turf, multi-functional negative ion turf. As the first artificial turf manufacturer in China to obtain FIFA and FIH double certification, we are on track to build a modern production base of high-end artificial turfs. (补充brief文字)
