

Padel Artificial Turf

This 15 mm padel artificial turf is made with polyurethane or polypropylene mesh fibers, which are resistant to UV lights. This is why the fake grass is very durable that can maintain high elasticity after being trampled for around 6,000 times, which ensures the ball bounces perfectly and allows hockey players to have better records. The synthetic lawn can deliver marvellous bouncing and sliding performance even in extreme weathers and provide excellent motion support not only for balls but also for players to ensure perfect adhesion even when the players engage in fierce competitions.

- ✓ Pile Height: 15mm
- ✓ Total Carpet Pile Height: 16mm
- ✓ Yarn Shape: Fibrillated
- ✓ Material: PE
- ✓ Pile Dtex: 6600
